

Kinase Targets Available Only From KINOMEScan™

71 Kinase Targets You Won't Find Anywhere Else

- 71 kinases not available anywhere else
- Affords a comprehensive view of potential off-target activity that smaller panels may overlook
- Avoid costly decisions due to incomplete data or even lost opportunities

It is no surprise that more researchers are turning to KINOMEScan™ to help drive their discovery and SAR. To request a quote and see what you have been missing, contact your local sales representative or email us at sales@kinomescan.com.

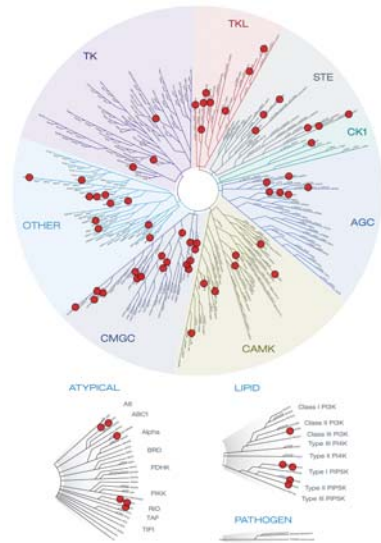

Figure 1. Red circles represent unique KINOMEScan™ kinases not currently available from anywhere else.

Totally Unique Assays: 71 Kinase Targets							
AAK1	CDC2L1	DCAMKL3	GAK	MAP4K3	PIP5K1A	RIPK1	TIE1
ACVR2A	CDC2L2	DMPK2	HPK1	MAST1	PIP5K1C	RIPK4	TNNI3K
ADCK3	CDC2L5	DRAK2	HUNK	MYLK4	PIP5K2B	SBK1	TRPM6
ADCK4	CDK11	EPHB6	ICK	MYO3A	PIP5K2C	SgK110	WEE2
ANKK1	CDKL1	ERBB3	IRAK3	NEK5	PRP4	SNRK	YANK1
ASK2	CDKL2	ERK3	LATS1	PCTK2	QSK	STK35	YANK2
BIKE	CDKL3	ERK4	LZK	PCTK3	RIOK1	STK36	YANK3
BUB1	CDKL5	ERK8	MAK	PFTAIRE2	RIOK2	STK39	YSK4
CASK	CSNK1A1L	ERN1	MAP3K15	PFTK1	RIOK3	TESK1	

Assay comparisons made against five kinase profiling service providers. Does not include pseudokinases, non-human or mutant kinase assays.
